## **FAQ'S**

### ***Where is your studio located?***

Our house/studio is located at 18 E. 12th St. Holland, MI 49423. We're located near Centennial Park in a historic home. If you're trying to get here, it's worth noting that it's a red, brick house between Central and College. 18 W. 12th is just a few houses down, so it can get confusing!

### ***What is considered a Local Location?***

Anywhere within walking distance of our studio including downtown Holland, Centennial Park, Hope College's Campus or Window on the Waterfront are considered Local Locations.

### ***What are basic digital rights?***

Basic digital rights include all color full resolution jpgs of all the images from your session(s) on a jump drive or disc.

### ***When do I pay for the session?***

Payments are due at time of session. Checks can be made out to Walcott Imaging.

### ***How long does it take for my session to be posted?***

We post a preview of your session within 1-2 weeks. Usually they are posted on our Facebook page for easy viewing/sharing, however if you'd rather have a private gallery, just let us know! The rest of your images will be posted within 4 weeks of the session date at which time we will email you.

### ***What's the best way to get in touch with you?***

If you are running late or have last minute complications you can text or call, 616-594-0621. Please contact us through the website or via email ([support@walcottimaging.com](mailto:support@walcottimaging.com)) with questions. If you would like to have a conversation with us, we can schedule a phone call, chat, or meeting.

### ***What to wear?***

Feel free to bring a few outfits and we can help you select the best options for the session. Traditional photography rules say to wear long sleeves and solid colors so that the emphasis is on the subjects' face. Rules are good to know, but don't necessarily need to be followed if you're not looking for traditional portraits. If patterns are your thing, go for it! We suggest being comfortable and staying true to yourself and your style when choosing clothing for your session.

Also, accessories and layers can be a great way to add variety to your shots without having to take time out for a full wardrobe change. Bring hats, scarves, jackets, headbands or sunglasses to have options for the shoot.

### ***Can I bring props to the session?***

Props can be a great addition to your session. If you haven't caught on so far, *we like to have options!* We'll tell you if we don't think it will work well--bring it along if you think we may want to use it.

### ***How much retouching do you do to the images?***

Our processing includes basic color correction and light retouching. When it comes to getting photo's of you or your child looking their best, you are responsible, too! Use an iron unless wrinkles are your thing!
